Video Interview Update

Bluejay Mining plc (**'Bluejay'** or the **'Company'**), the AIM, FSE listed and OTCQB traded exploration and development company with projects in Greenland and Finland, is pleased to provide a video interview update with the Company's Executive Chairman, Robert Edwards, following the Placing to raise £600,000 announcement ([23 August 2023](#)).

The interview discusses the announcement, outlining the Company's £600,000 fundraise, which will be focussed on the Hammaslathi copper-zinc-silver-gold project in Finland, as well as the Company's discussions with strategic partners, and future plans to explore Bluejay's portfolio of projects in Greenland and Finland.

About Bluejay Mining plc

Bluejay is listed on the London AIM market and Frankfurt Stock Exchange and its shares also trade on the OTCQB Market in the US. The Company holds multiple exploration and development projects in Greenland and Finland, providing its shareholders both portfolio and commodity diversification in high quality jurisdictions.

Bluejay, through its wholly owned subsidiary Disko Exploration Ltd., has signed a definitive Joint Venture Agreement with KoBold Metals to guide exploration for new deposits rich in the critical materials required for the green energy transition and electric vehicles (The Disko-Nuussuaq nickel-copper-cobalt-PGE Project). Disko Exploration Ltd holds two additional projects in Greenland - the 692 sq km Kangerluarsuk zinc-lead- silver Project, where historical work has recovered grades of up to 45.4% zinc, 12.4% lead and 596 g/t silver; and the 920 sq km Thunderstone Project which has the potential to host base metal and gold deposits.

In Finland, Bluejay currently holds three large scale multi-metal projects through its wholly owned subsidiary FinnAust Mining Finland Oy. The Company has identified multiple drill ready targets at the Enonkoski nickel-copper-cobalt Project in East Finland. Bluejay's drill ready Hammaslahti copper-zinc-gold-silver Project hosts high-grade VMS mineralisation and extensions of historical ore lodes have been proven. The drill ready Outokumpu copper-nickel-cobalt-zinc-gold-silver Project is located in a prolific geological belt that hosts several high-grade former mines. Bluejay also owns a c.29% holding in Metals One plc (recently listed on the AIM Market in London).
